## BROADVIEW POLICE DEPARTMENT

2350 South 25th Ave. Broadview, IL 60155

708-345-6550  
FAX: 708-681-0248

### MEMORANDUM

TO: Mayor Sherman C. Jones

FROM: Chief Luis C. Tigera

DATE: April 1, 2014

SUBJECT: 2013 Broadview Police Department Annual Report

It is my distinct pleasure to present the Broadview Police Department's 2013 Annual Report. The information contained in this report is intended to provide objective information to our citizens, the Board, and to you for evaluating the services provided by our Department. The report is designed to provide complete information on the operations of the Police Department during 2013 including our mission and activity levels during the year. This report represents the third such report during my tenure as Chief of Police and the preparation of this report was a cooperative effort between the officers, command staff and administration of this Department.

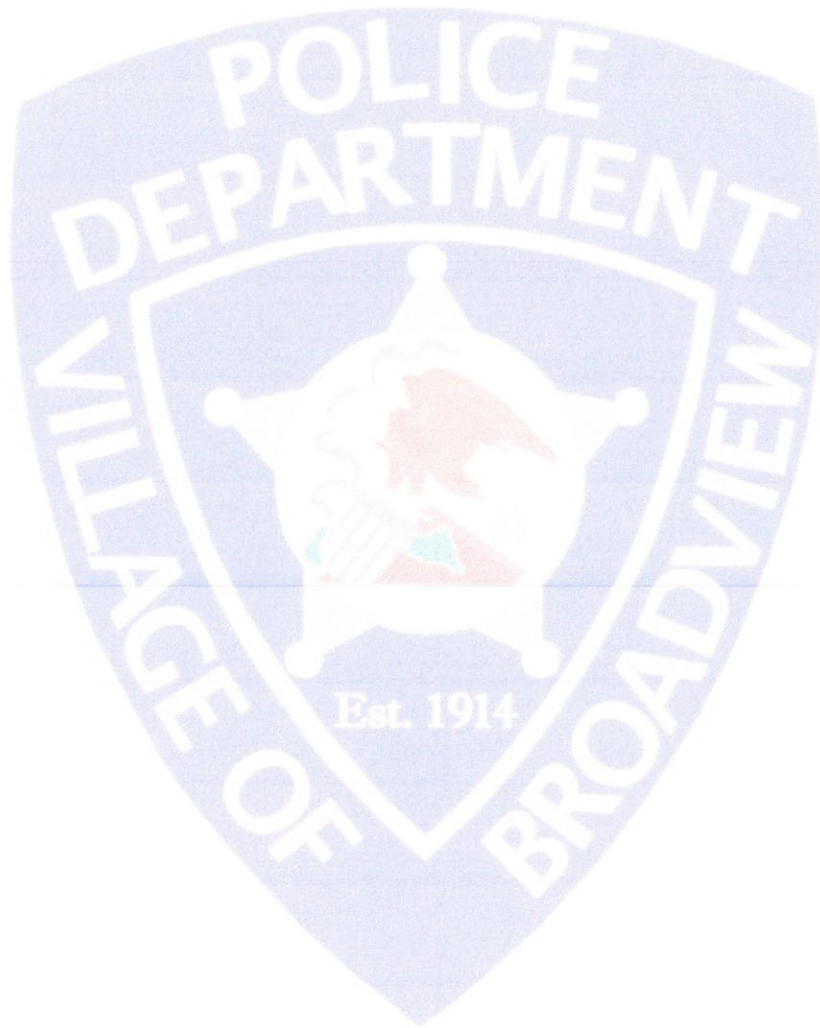

Staying ahead of crime is exactly what our officers did in 2013. Through directed patrols, the Intelligence Led-Policing model, and increased citizen contacts, we were able to reduce, as compared to 2012, "property crimes" by 28%, there was an increase in over-all arrests by 21%, and seized and recovered weapons amounted to an increase of 9%.

The Detective Bureau were assigned 315 cases, and arrested 27 individuals for criminal activity as well as 6 juveniles taken into custody. They maintained a clearance rate of over 54% for 2013. Quarterly stings resulted in nine Village Ordinance Violations for prostitution-related arrests.

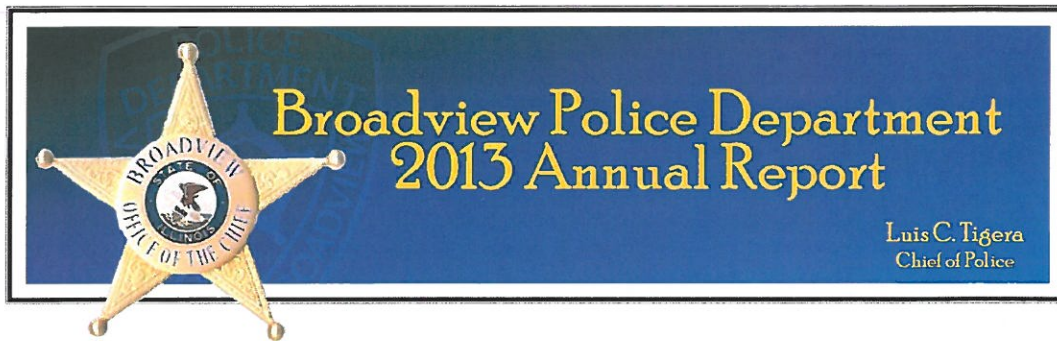

Broadview officers have become more community focused, more proactive and more outgoing. The community has become more comfortable with police officers, making them more likely to call when they see something suspicious, making them "our eyes and ears", which is the basis, the heart, of *Community Policing*!

This report contains administrative analysis and provides all of the necessary quantitative and qualitative information the reader needs in order to make an informed decision on the quality of law enforcement in our community.

In closing, I would like to thank our residents who have provided incredible support and encouragement in our efforts throughout the year. I also would like to acknowledge the continuing support of our Board who have given us the tools to accomplish our mission, and you, for your continued faith and support of our efforts. Most importantly, I must thank each of the employees of the Broadview Police Department with whom I have had the honor to serve with.

### *A Word from the Chief*

On behalf of the Broadview Police Department, I am pleased to provide you with our Annual Report for 2013. We have designed this report to be a resource for governmental entities, law enforcement agencies, journalists, and the residents of Broadview.

The **OFFICE OF THE CHIEF** consists of the Chief of Police, Deputy Chief of Police, and the Administrative Assistant to the Chief.

**DEPUTY CHIEF Kevin Wagner** is responsible for coordinating and supervising the day to day operations. He is responsible for planning, assigning, and supervising the activities of the Department. He is second in command to the Chief of Police and has command responsibility over all other members of the department.

**ADMINISTRATIVE ASSISTANT TO THE CHIEF Patricia Williams** works under the direction of the Chief, coordinates and performs a variety of confidential and complex secretarial functions; provides executive-level administrative support to the Chief of Police; schedules and coordinates meetings; prepares correspondence, reports, and other documentation; updates and maintains departmental records and files, and performs other related duties as assigned.

## *To Protect and Serve*

### Vision

*We will constantly evaluate and improve our efforts to enhance public safety with the goal of improving the quality of life within the Broadview community, while at the same time maintaining respect for individual rights and human dignity. We will strive for excellence in all we do - seeking to be one of the premier policing agencies in Cook County, State of Illinois.*

### Mission

We will protect life and property and serve the community honorably

### Values

For the Broadview Police Department to maintain public trust, we must constantly demonstrate that our partnership with the community will be objective and securely rooted in consistently applied ethical principles. As an organization, we propose to fairly and impartially carry out the Mission of the Department with **P.R.I.I.D.E.**

**Partnership** - We take pride in developing relationships with the people we serve.

**Respect** - We respect and value the dignity and worth of all persons, recognizing that diversity enriches our community.

**Innovation** - We will remain an innovative and progressive organization through leadership, education and technology.

**Integrity** – We will hold our officers to the highest standards with a set of characteristics that justify trust worthiness and generate trust amongst our stakeholders.

**Dedication** - We hold an individual's right to constitutional protection sacred and place the highest value on preserving life. We are accountable and responsive to the community that we serve.

**Excellence** - We will strive for excellence through the effective and efficient use of resources, and promote teamwork and the empowerment of employees at all levels.

### Goals

**Improve the quality of life** for our citizens through unimpeachable integrity, public service, training and education.

**Safeguard the public** by reducing crime and the fear of crime.

# BROADVIEW POLICE TABLE OF ORGANIZATION 2013

28 Full-Time Sworn  
8 Full-Time Civilian  
Total Employees - 36

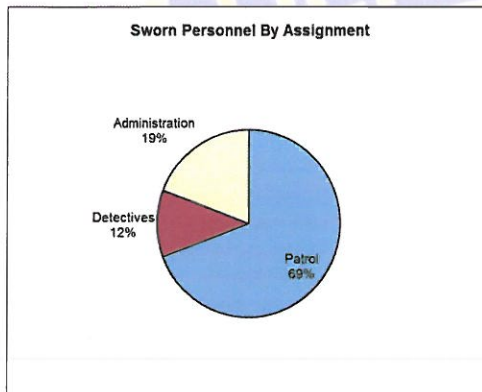

# PERSONNEL

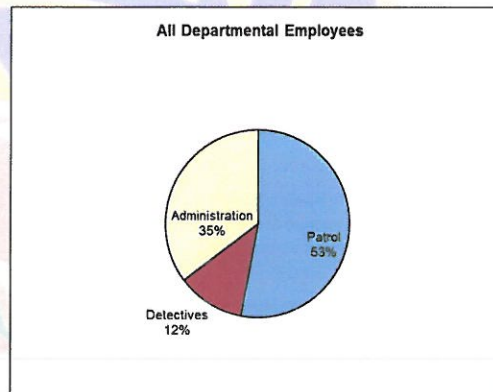

The Broadview Police Department employed a total of 36 employees during 2013. Of the 36 employees, there were 28 full-time sworn officers and 8 civilian support staff (non-sworn personnel). Patrol is the primary function of the Operations Division and 69% of the sworn personnel are delegated to the Patrol Bureau's function, 12 % are delegated to the Detective Bureau, and 19% are delegated to the Administrative Division. All sworn personnel share in providing basic law enforcement service as needed. The Detectives and Administration Officers routinely conduct preventative patrol and respond to calls for service when staffing needs are identified.

The following is a statistical analysis of personnel assignments in the police department:

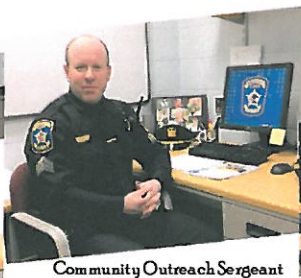

**Percent of Sworn Personnel**

**Percent of All Personnel**

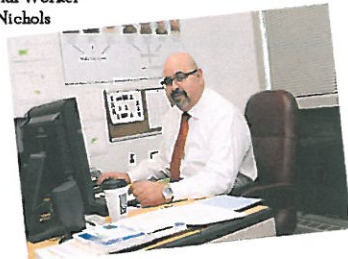

Police Social Worker  
Julia Nichols

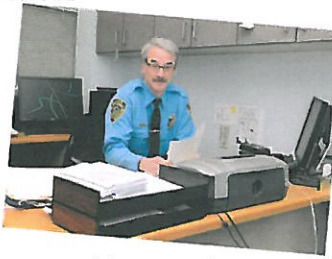

Community Outreach Sergeant  
Tom Kostka

Administrative Assistant  
to the Chief  
Patricia Williams

Inspector  
Jose Camacho

Administrative Supervisor  
Paul Kurtzner

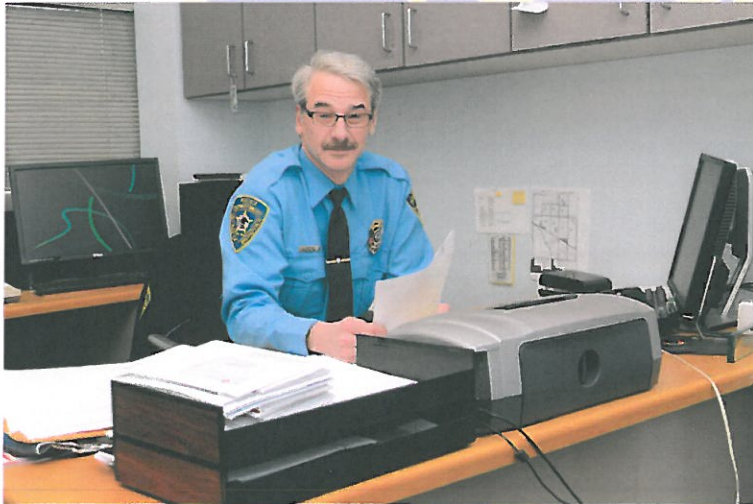

## ADMINISTRATIVE DIVISION

Administrative Division directs the overall administrative activities of the Police Department. Commander Michael Kosik supervises the Division and ensures that Department resources are used in the most efficient and effective manner. The administrative functions within the Division are: Records, 911 Center, and the Community Outreach Bureau.

Further, the Administrative Division is responsible for coordinating Police Department efforts with other Village Departments, criminal justice agencies, and with the community.

### RECORDS and the 911 CENTER

911 Center and Records are supervised by Mr. Paul Kurtzner who reports to Commander Michael Kosik.

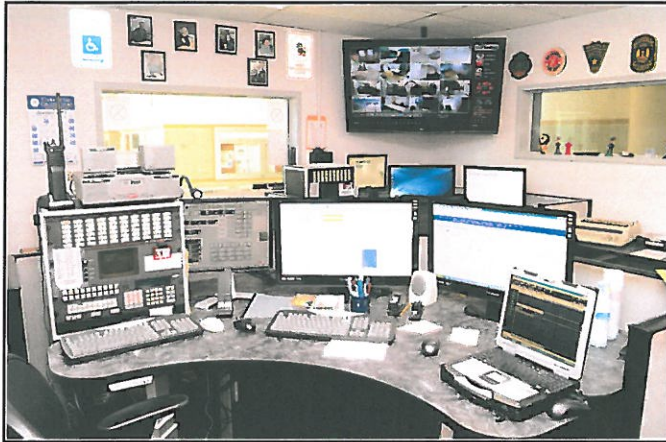

Records maintained and managed over 29,417 reports for the year in 2013. Over 1,000 requests for reports were processed for distribution to the public. The records personnel also handle Freedom of Information requests, as well as,

records checks of local records for city, state and federal jurisdictions.

In 2013, Records collected \$142,250.00 in impound fees, \$2,126.50 in Crash Report Copy fees, \$23,254.00 in storage fees, \$2,085.00 in immobilization fees, and \$66,020.00 in towing fees. In 2013, the Police Department collected a total of \$10,775.00 in adjudication fees, \$57,820.00 in administrative citations, \$36,699.01 in collection agency reimbursements, \$38,687.70 in Cook County Court Disbursements, and \$35.00 in Jury Duty/Subpoenas payments, which generated a total of \$379,752.21 that was turned over to the General Fund.

## 911 Center

immediately appears on our monitor. This is critical for your safety in situations where you may not be able to speak into the phone. Using computer technology, telecommunicators also access prior events from your address to give the officer's responding more information. We realize that in an emergency, you expect the person who answers the phone to be highly trained, professional and courteous. Skilled Tele-Communicators are always ready to assess your unique situation and dispatch the needed resources.

## COMMUNITY OUTREACH BUREAU

The Broadview Police Department strongly embraces the philosophy of Community Policing in all its daily operations and functions. Community Policing is based upon a partnership between the Police and the community whereby the Police and the community share responsibility for identifying, reducing, eliminating and preventing problems that impact community safety and order. By working together, the Police and the community can reduce the fear and incidence of crime and improve the quality of life in neighborhoods village-wide. If you have any inquiries regarding our Community Policing Programs, please contact the Community Outreach Bureau, at 708 345-6550 or e-mail us at [COPS@broadview-il.gov](mailto:COPS@broadview-il.gov).

## COMMUNITY EVENTS

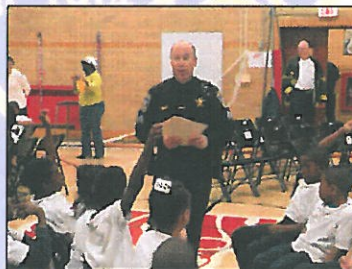

On February 13th, Sergeant Tom Kostka visited Lindop School to talk with students about the importance of making good decisions. Sergeant Kostka talked about impulse control and gave examples of situations where people's lives have been forever changed by decisions made without proper consideration of consequence.

*"Learning to make thoughtful decisions is one of the secrets to leading a happy and successful life. In fact, our prisons are filled with poor decision makers" - Sgt. Kostka*

*"Be careful of your thoughts, they become your words. Be careful of your words, they become your actions. Be careful of your actions, they become your habits, Be careful of your habits, they become your character. Be careful of your character, it becomes your destiny" - Sgt. Kostka (original author unknown)*

## ROOSEVELT SCHOOL SAFETY DAY

On April 11th, members of the Broadview Police and Fire Departments met with students from Roosevelt Grammar School Dist.89 to discuss various safety topics, such as: Bicycle Safety, Fire Safety, and the dangers of poisons in the home. Assemblies like this provide a great opportunity to educate the children of Broadview, but they also provide a forum for children to interact directly with Police Officers, Fire Fighters and Paramedics in a comfortable and familiar setting. It is our hope that in time, these positive contacts will pay dividends by strengthening these important relationships within the community.

## STRANGER DANGER PRESENTATION

On April 27th, Broadview Police Officers took part in Broadview Baptist Church's Youth Outreach Workshop. The workshop was presented by the BBC's Child Protection Ministry, and several topics were covered, including: how to have a positive relationship with your parents, how to deal with temptation, and how to ensure your safety. The Broadview Police presented information for children ages 6-10 about how to recognize bad strangers and what to do if they encounter them.

Scenarios were presented to allow children to roll-play and practice saying NO! when approached by someone who asks something of them or who makes the child feel uncomfortable. Trusting their own instincts is key.

## "PATRIOT'S DAY AT LINDOP SCHOOL

Members of the Police and Fire Departments attended "Patriot's Day" at the school on the 12th anniversary of 911. Lindop students and Broadview first responders took part in a ceremony to honor the occasion. We were grateful to receive hundreds of hand written letters of appreciation from the students, and as always, we were honored to attend.

## COMMUNITY MEETINGS

### TOWN HALL MEETING

On March 28th, Police and Fire Chief's Luis Tigera and Thomas Gaertner met with residents for a Public Safety Town Hall Meeting at Schroeder Park.

Both Chiefs made presentations to attendees about their vision for the future of their respective departments as well as some of the challenges they've both faced, asking their staff to work harder with less. Police Chief Tigera spoke about how crime analysis is helping the police department allocate resources more effectively.

### BEAT MEETINGS

**BEVERLY** - On July 22nd, approximately 45 residents of the Beverly section of Broadview (located south of Cermak Rd. and west of 17th Ave.) came together with members of the Police Department command Staff to explore ways to make their section of town safer.

**ACRES** - On September 12<sup>th</sup>, approximately 30 residents of the Acres section of Broadview (located North of Roosevelt Rd. and east of 17th Ave.) came together with members of the Police Department command Staff to explore ways to make their section of town safer.

Future meetings are being coordinated through the Community Outreach Bureau.

## CROSSING GUARDS

The Village of Broadview provides protection for children crossing streets on their way to and from school by employing trained adult crossing guards. The unit is supervised by Mr. James Henderson and conducts the necessary traffic studies and training.

## OPERATIONS DIVISION

The Operations Division is supervised by Commander Kevin Eugling. Within the Operations Division are the Patrol and Detective Bureaus, supervised by Sergeants or Acting Watch Commanders. The Division Commander reports to the Deputy Chief, who in turn reports to the Chief of Police.

### PATROL BUREAU

The largest single component within the Broadview Police Department is the Patrol Bureau. The Patrol Bureau is responsible for responding to emergency and non-emergency calls for service from the public, handling special assignments, and proactively addressing community concerns.

The Patrol Bureau is divided into three shifts, in order to provide continuous 24 hour police services. Each shift is supervised by a Watch Commander Sergeant or an Acting Watch Commander. The number of officers allocated to each shift is based on a staffing allocation formula that focuses on calls for services, and activity levels. In addition, the Village is divided into eight (8) beats, with beat staffing tailored to meet the needs of that particular area.

The patrol officers are responsible for the daily preventative patrol duties and are most likely to be in direct contact with the public. Each officer assigned to the Patrol Bureau is encouraged to make weekly citizen contacts, known as “walk and talk”, designed to assess the needs and concerns of our residents, business owners and visitors.

Responding to the concerns of our residents, the officers have done an excellent job enforcing the law, reducing crime and educating the community on crime prevention techniques. In 2013, the Patrol Bureau responded to **20,116 calls for service, made 346 arrests, issued 1718 moving violations and issued 4644 parking violations.**

**The efforts of the Patrol Bureau led to the reduction in “violent crimes” by 27%, but there was an increase in property crime by 26%. However, arrest rates increased 54% in all categories. Drug arrests also increased by 35% and seized and recovered weapons amounted to an increase of 23%. We attribute our success largely to the dedication of our officers and the support and cooperation we receive from the public we serve.**

Our response to alarm calls, are an important function served by the Department. While a high majority of our alarm response proves to be from accidental set off or equipment failure. **Alarm responses in 2013 were 761.**

## **ENFORCEMENT - DIRECTED PATROLS**

Our main goal of directed patrol was to reduce crime in Broadview by increasing Police presence in high-crime areas. This proactive approach allowed officers to concentrate on suspicious activities and high-risk offenders, and to provide a deterrent effect in high-crime areas. This would ultimately incapacitate dangerous offenders and remove guns, drugs, and gangs from our streets.

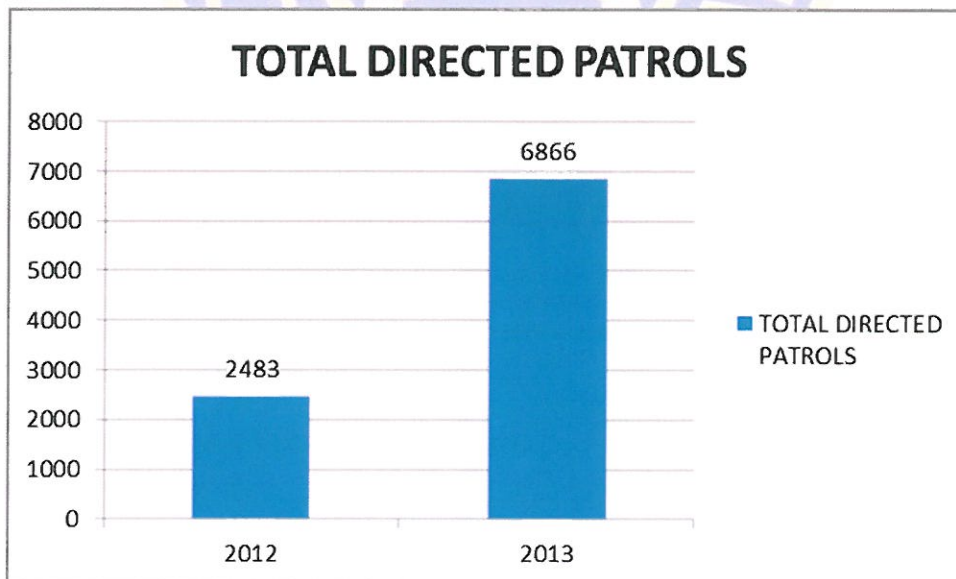

### **Target Sites**

After an analysis of crime rates in different areas of Broadview, several police beats with high crime rates were selected as the target sites for directed police patrol.

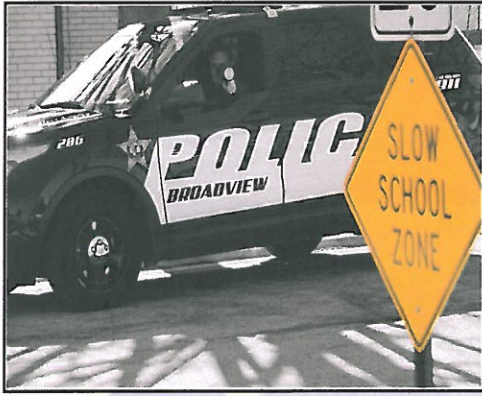

### **Program Theory**

The theory behind directed police patrol is that increased Police presence reduces criminal activity. If a general increase in the number of Police has a negative impact on crime, then increasing the level of Police in high-crime areas should produce even stronger crime-control results. Directed police patrol uses a proactive strategy of policing to prevent crimes from occurring, as opposed to a reactive strategy that makes arrests after a crime has already been committed.

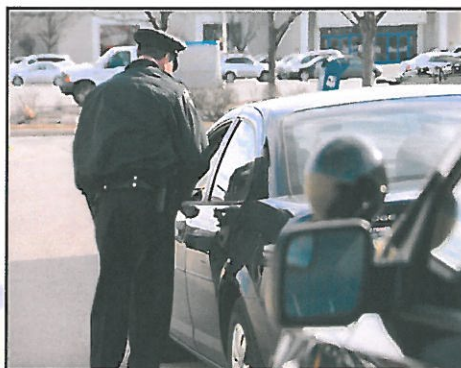

The below information identifies the amount of 2013 Directed Patrols compared to 2012:

## DETECTIVE BUREAU

The Detective Bureau currently has three Detectives dedicated to conduct criminal investigations, and one civilian Resource Support/Intelligence Officer. They report to Operations Commander Kevin Eugling.

Two Officers are assigned to state multi-jurisdictional Task Forces, one focuses on money laundering, guns, drugs and gangs, and the other on Motor Vehicle Thefts. These Task Forces have assisted the PD in numerous cases.

**The Detective Bureau arrested 27 individuals for criminal activity as well as 6 juveniles taken into custody. They maintained a clearance rate of over 54% for 2013. In Broadview, crimes are only declared as cleared for statistical purposes if an arrest is made in a case. The Bureau handled six (6) major cases in 2013:**

On January 23, 2013, Broadview Detectives responded to an armed robbery at the Hair Cuttery. During the course of the investigation, it was determined the same offender committed armed robberies in the towns of Morton Grove, Bensenville, Skokie, Glenn Ellyn, Niles, Lombard and the City of Chicago. With the assistance of these towns, the offender was arrested and charged with multiple felony counts of armed robbery.

Between March and April of 2013, Broadview Police took reports from two victims who were robbed after responding to items posted for sale on Craig's List. One victim was pepper sprayed after giving the offender his Air Jordan gym shoes. Detectives were able to identify and arrest two offenders with help from the victims.

During the week of July 15, 2013, the Broadview Police Department took multiple reports of burglaries to vehicles that occurred during the early morning hours. The offender was arrested for three outstanding warrants for auto burglary and charged with criminal trespass to vehicle by Broadview Detectives.

On August 19, 2013, Broadview Detectives responded to a shooting near 22<sup>nd</sup> Avenue and Harvard. A juvenile was shot in his torso over a gang dispute and transported to Loyola Hospital. Within one week, Broadview Detectives identified and located the offender. The offender was charged with attempted murder and aggravated battery with a firearm with assistance of the Assistant State's Attorney's Office. The victim survived the shooting but has undergone multiple surgeries due to the gunshot wound.

On August 10, 2013, the Broadview Police Department assisted Westchester Police locating the offender from a violent sexual assault at the Travel Inn Motel. After two subjects were detained for the sexual assault investigation, two kilograms of cocaine were discovered. Broadview Detectives along with a Broadview Task Force Officer assigned to the Illinois State Police Narcotics and Currency Interdiction Team (NARCINT) responded to investigate. The investigation determined both subjects were visiting from Georgia and planned to sell 2 kilograms of cocaine in the Broadview area. Both subjects were arrested and the cocaine was seized by the Broadview Police Department. The cocaine had a street value of approximately \$220,000.00.

On November 21, 2013, Broadview Patrol transported a subject to the Broadview Police Station after being arrested for a traffic offense. The subject had multiple gift cards and a fake identification card. Broadview Detectives were able to determine the subject was in possession of counterfeit credit cards. Credit card companies confirmed that multiple victims, from across the country, had their credit card numbers compromised. The subject was charged with multiple felony counts of possessing counterfeit credit cards and a fraudulent identification card.

**Detective Dave Yurkovich**

**Detective Sergeant Mike Akim**

**Detective Robert Smith**

**Inspector Jose Camacho**

### **West Suburban Major Crimes Task Force (WESTAF)**

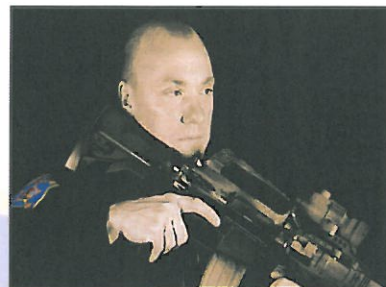

Personnel are assigned to the West Suburban Major Crimes Task Force (WESTAF). WESTAF assist member agencies and adjunct task forces in the successful investigation of violent crime and the apprehension and prosecution of those proven responsible for those crimes. During the calendar year of 2013, Detectives from the Broadview Police Department responded to three (3) investigate cases with the task force.

## **SPECIAL RESPONSE TEAM**

One member of our Department is assigned to the Special Response Team (SRT) which is comprised of one to three officers from each of the surrounding jurisdictions. The officers privileged to serve on this team are some of the most highly trained and experienced officers in the area. The team continues to be a valuable asset to the area communities, with the capability of providing high quality tactical services for a wide variety of incidents on short

notice. Their safety record and successful resolutions of incidents is a credit to their professionalism and dedication.

## **STATISTICAL REPORTS**

The Broadview Police Records Management System (RMS) has provided advanced technology for our Computer Automated Dispatch (CAD). This technology provides us with a wide range of statistical capabilities which include Crime Mapping and the ability to prepare strategic and tactical representation of problem areas and areas of specific concern. These capabilities were improved in 2013 and are now more efficient than ever.

The following is an analysis of the statistical information and graphs that have been prepared for this report. This report represents a view of 2013's statistics on crime, arrests, and enforcement activities compiled from the Broadview Police Department's Records Management System (RMS). Arrest made by responding officers were recorded on arrest reports associated with the crime and used for statistical purposes. Once the information had been entered and "signed off" by a supervisor it was stored in the Department's RMS. Additional information was drawn from other federal or state databases.

The below crimes, arrests, and enforcement activities contained in this report were captured from January 1, 2013 thru December 31, 2013:

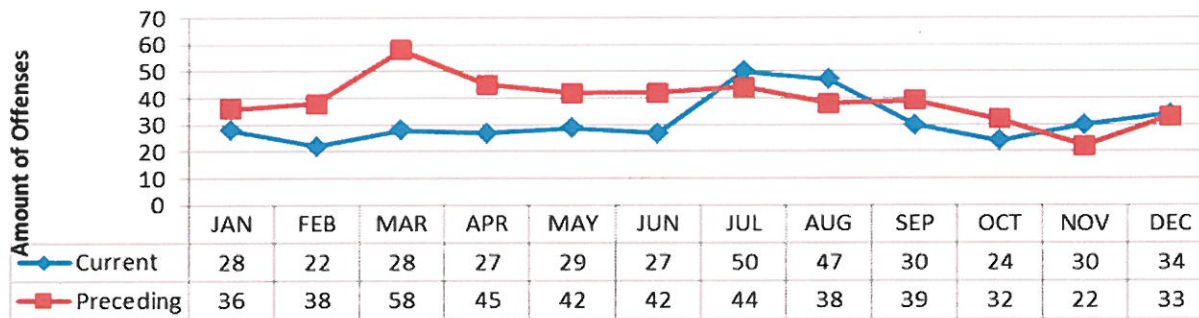

### **CRIMES**

### Yearly Comparison Index Crime Offenses

## DEPARTMENT TECHNOLOGY

The Broadview Police Department introduced TASER, a non-lethal tool, in 2008. It has been used by police to subdue fleeing, belligerent, or potentially dangerous people, who may have

otherwise been subjected to more lethal weapons such as a firearm.

Broadview is in the process of exchanging Model X26 to the new X2. Each Broadview Police Officer who chooses to carry a Taser, has been trained in its use and **MUST** agree to experience the affects of the weapon by receiving one very unpleasant, standard five-second application. This part of the training is meant to teach the Officer exactly what the “Tased” offender experiences.

We have added another tool to enhance our officers' safety. The Automatic License Plate Recognition (ALPR) delivers the ability to read vehicle license plates and check them against an installed database for rapid identity verification. The license plate recognition system has been used to locate stolen or wanted vehicles and identify parking-ticket scofflaws.

## POLICE ACCOUNTABILITY COMMAND SESSION (PACS)

The concept of PACS is to analyze numbers and locations of crimes and arrests as well as suspects, victims, days and times of criminal activity, and so forth, to identify crime patterns, clusters, suspects, and hot spots. Strategies are then formulated to counter increasing incidences of crime. The PACS process has encouraged creativity in strategies, allocating resources, and deploying police personnel while holding managers and employees accountable for confronting the problems of crime proactively. The accountability sessions has ensured the appropriate supervisor is proactively monitoring the activity of his unit by reviewing and analyzing reports, implementing a response to the analysis, and assessing the outcome of the response. In essence, consistent direction would be provided, performance would be measured, and accountability would be assured. This concept is not new to law enforcement, it is known as COMPSTAT.

## TRUCK/TRAFFIC ENFORCEMENT INITIATIVE

This officer patrolled the village looking for overweight trucks traveling through Broadview. Additionally, he scheduled truck/traffic details/operations with the Illinois State Police and other local law enforcement agencies throughout the year. During these roadside checks, all commercial, construction and garbage trucks were checked for proper traffic weight and given a thorough safety inspection by the State Police Motor Carrier Safety Officers. Through these roadside safety checks we limit the number of unsafe commercial vehicles traveling on Broadview roads.

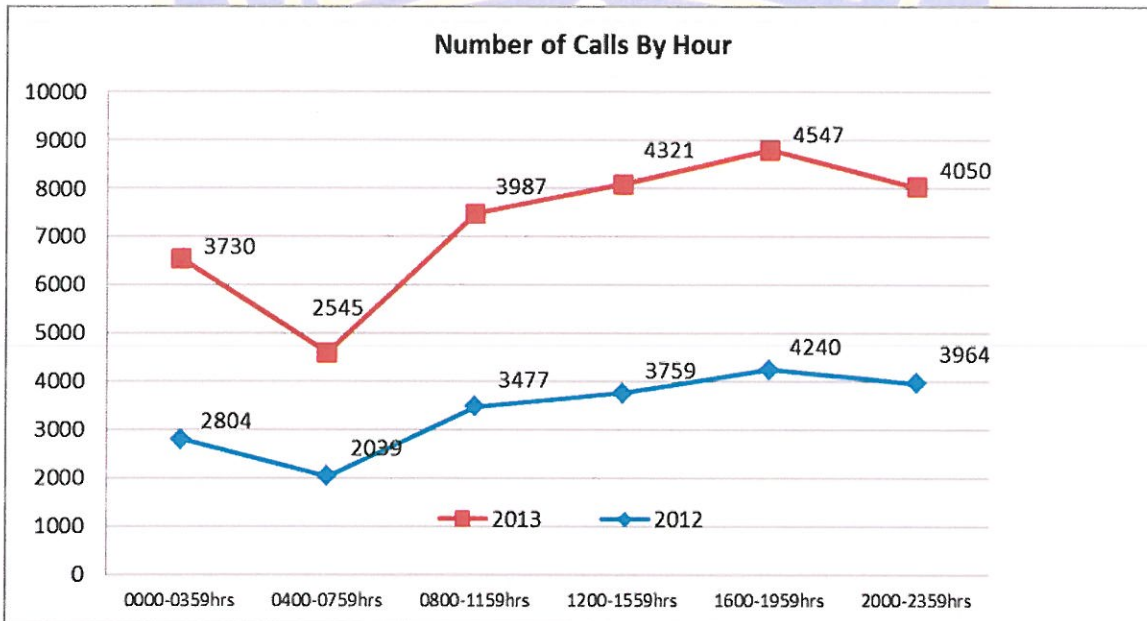

2013 TRAFFIC ENFORCEMENT BOND TOTALS - \$142,405.00  
RECEIVED FROM COURT - \$20,502.00  
PENDING COURT PROCESSING - \$54,000.00

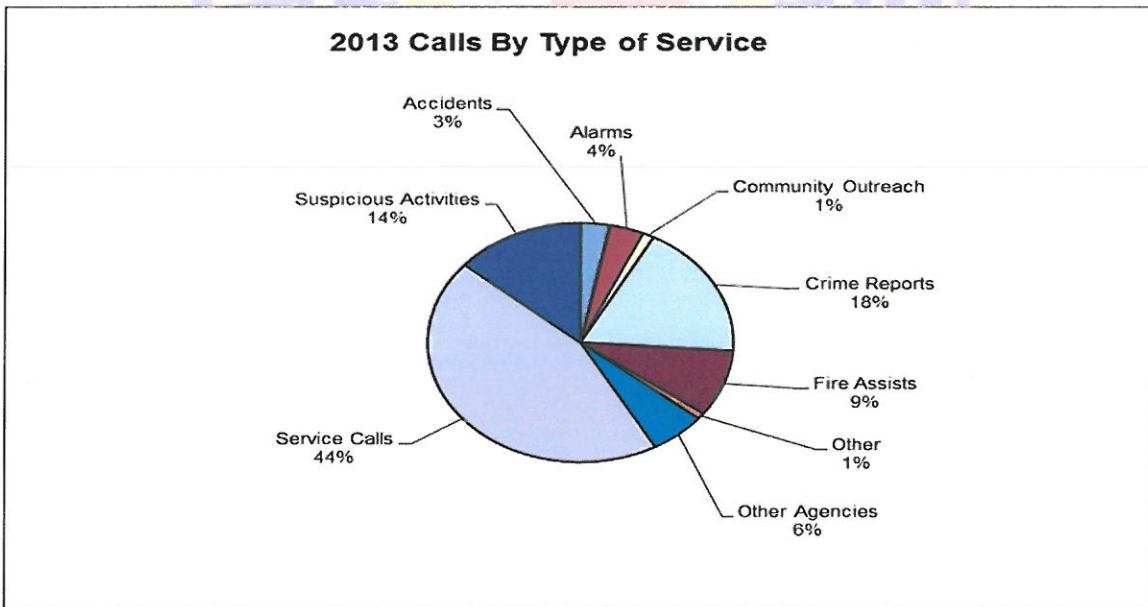

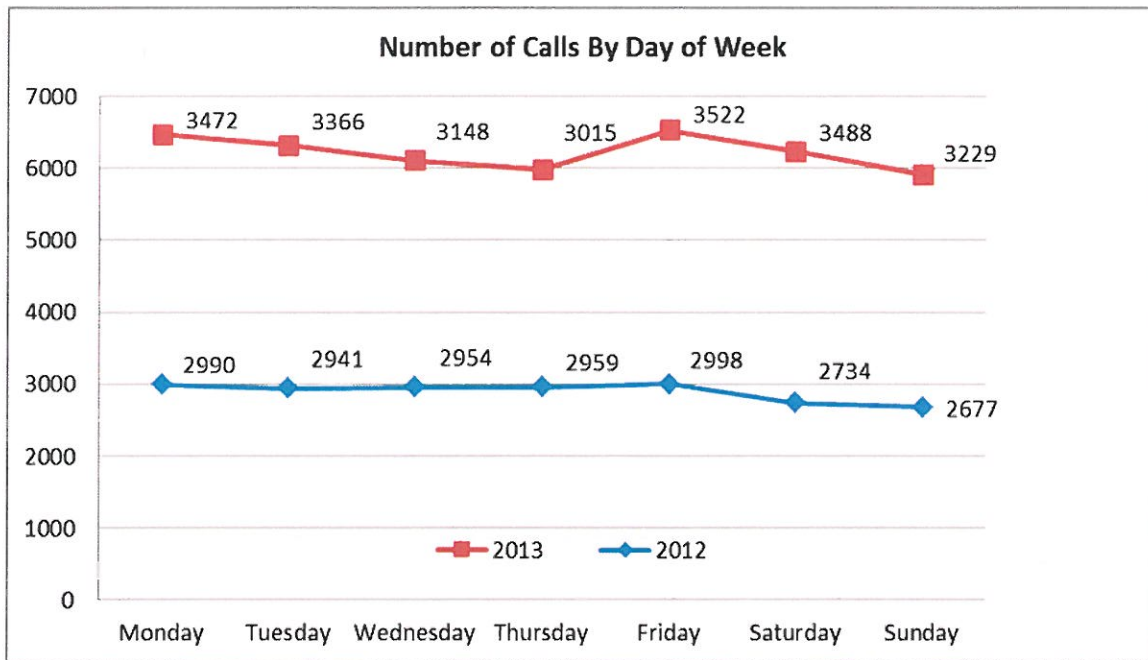

## CALLS FOR SERVICE

The Broadview Police Department is a service-oriented Police Department that uses an analytical approach to respond to calls for services. Whether it's a crime in progress or to assist in a barking dog, officers will respond in a timely manner.

These graphs represent a distribution of calls for service for the hour of day, day of the week, and types of calls to which the police department has responded. In comparison to 2013 an increase in calls of service of 15%, was realized.

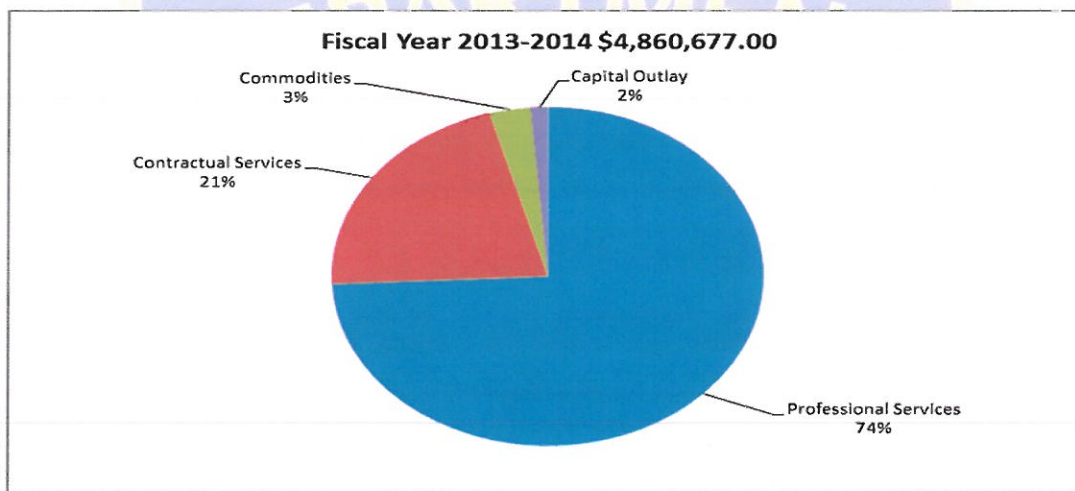

## BUDGET OVERVIEW

### *Operating Costs*

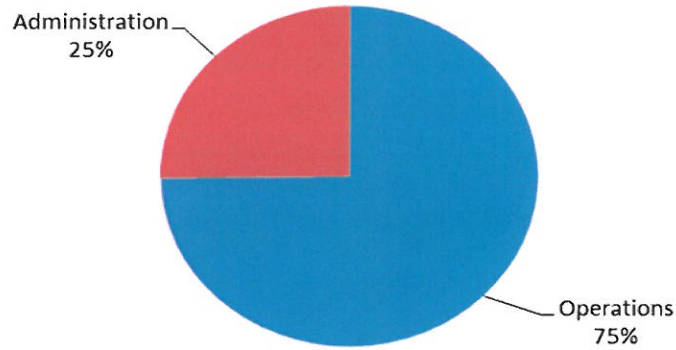

The total operating budget for the Broadview Police Department for fiscal year 2013, which includes the period May 1, 2013 through April 30, 2014, is \$4,860,677.00. As illustrated in this chart, the largest single operating expense remains professional services 74%. This figure is generally consistent with previous years. Contractual services consume an additional 21% of the Department's annual operating budget, while commodities consumes 3% and capital outlay represent 2% of all expenditures.

As may be expected, the Operations Division requires the largest budget in order to fund day-to-day operations. Where 74% of the Department's budget is for professional services, of which, the Operations Division expenditures comprises 75%, and the Administrative Services comprises 25%.

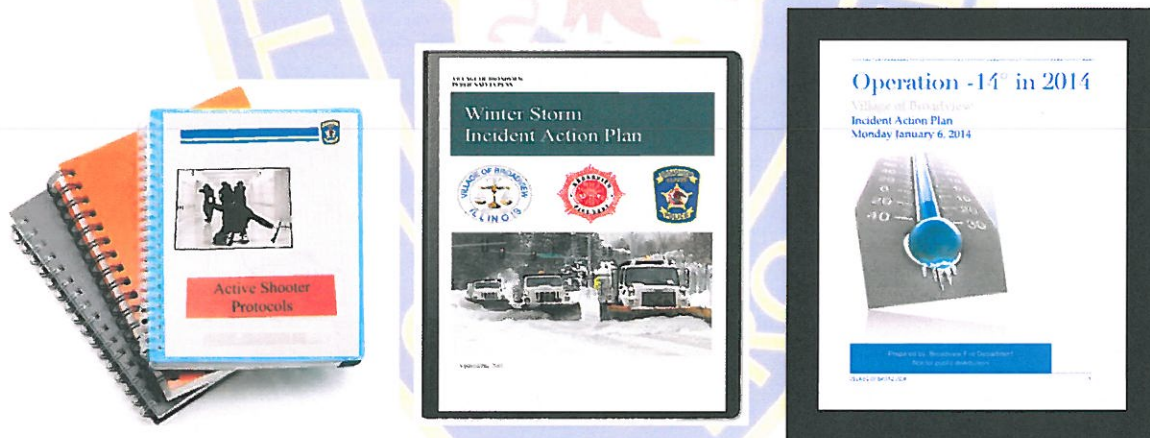

### Professional Services By Division

## CRISIS PLANNING

Broadview Police and Fire continues to work closely with School District 89 and 92 in the development of their Crisis Response Plans. Plans have also been developed for other incidents and/or crisis.

## IMMIGRATION DEMONSTRATION

During 2013, Broadview officers responded to two (2) separate incidents at the US Immigration building on Beach Street for protest in front of the building, the second incident involved a group blocking the ICE transport bus.

The protection of physical safety, property, and civil liberties are our main responsibilities in situations like these. With no advanced knowledge of these protests, our officers worked quickly and efficiently to organize an effective response.

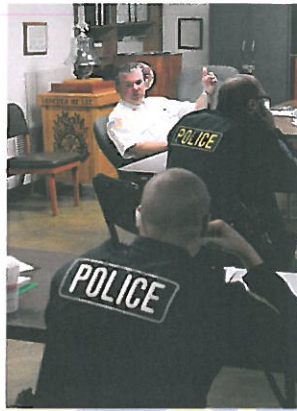

It was “All Hands on Deck” with Broadview personnel. Neighboring police units responded to assist. A NIPAS call was initiated and officers from NIPAS (Northern Illinois Police Alarm System) Field Force responded. Protesters locked their arms together using PVC tubing, known as “Sleeping Dragon” and refused to move from the street. Several arrests were made without incident and no injuries were reported.

## 2013 INITIATIVES

### POLICE AND FIRE TRAINING

The Police and Fire Departments are constantly training. During a serious event, efficient communication and cooperation between first responders of different departments and agencies is of utmost importance. Recently, Fire and Police teamed up with Paramedics from the Fire Department to coordinate a joint response to an Active Shooter situation at one of our schools or businesses. Scenarios were presented and our first responders worked in teams to eliminate the threat and offer medical assistance to those who were injured. When the training was over, it was time to evaluate what went well and what needs improvement.

## EMERGENCY OPERATIONS CENTER (EOC)

After analyzing events as Broadview's flood, and severe snowfalls, it became apparent that village entities should be working in concert with each other to maximize efficient service for our residents.

We began by brainstorming to collect ideas and opinions of first responders from the Police Department, Fire Department and Public Works. The first item on our wish list was to have one central location where the department heads could work from to stay connected with each other during a crisis. A suitable location was agreed upon and outfitting of the facility began. Cohesive communication is the key here. The new E.O.C. room is equipped with multiple phone lines, an internet-enabled computer system and a large display monitor for monitoring events as they unfold.

## MOBILE COMMAND UNIT (MCU)

Police and Fire Chief recognized the need for an all-purpose Mobile Command Unit that can be deployed in the event of a serious incident in Broadview. An out of service ambulance was marked and has been equipped with gear needed by both agencies and has already been utilized by officers on special details around town.

In the event of a serious incident, Police Officers, Fire Fighters and Paramedics can feel assured that not only will they be well equipped, but that communications with the E.O.C (Emergency Operations Center) can be established and maintained in a secure, yet mobile environment.

## COFFEE WITH A COP

On June 21st, members of the Broadview Police Department were on hand at Dunkin Donuts to speak casually with residents as they stopped in for their morning coffee. Members of the Police Department's Command Staff chatted for hours with customers who had a few minutes to spare. "Coffee with a Cop", which began in California, provides citizens to have a more open and honest dialogue with their police officials.

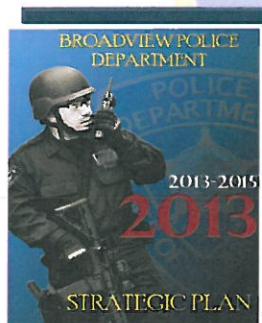

## BROADVIEW RECOGNITION

The Broadview Police Department received the Webber Seavey Award at the International Chiefs of Police conference for our enforcement efforts in combating guns, drugs, and gangs through "Operation Triangle".

Jointly sponsored by IACP and Motorola, the Webber Seavey Award is presented annually to agencies and departments internationally, in recognition for promoting a standard of excellence that exemplifies law enforcement's contribution and dedication to the quality of life in local communities. This program helps law enforcement agencies internationally and the communities they serve by redefining the concept of law enforcement and how it is routinely performed. The award is named for Webber S. Seavey, the IACP's first president.

## STRATEGIC PLAN

The Strategic Plan assess how well the organization is

doing, what it's already doing, and plans for improvement in the future.

Supervisors for each Division were tasked to first identify goals and objectives for their Divisions. Then, they were asked with critiquing the effectiveness of their current initiatives and creating a plan to move forward with new ways to improve the agency and offer better service to the residents.

GOAL & OBJECTIVE STATEMENTS				
Goal 1: Reduce Crime and Fear of Crime	Goal 2: Enhance the Departments Performance	Goal 3: Strengthen Relationships with Law Enforcement Agencies and Civilian Partners	Goal 4: Advance Deployment of Technology	Goal 5: Plan and Prioritize Capital Needs
Objective 1: Reduce the Level of Street Crime by 20%	Objective 1: Increase the Number of Organizational Training Opportunities by 5%	Objective 1: Enhance the Number and Quality of Internal Relationships	Objective 1: Increase Integration Technology Opportunities	Objective 1: Plan, Prioritize, and Out-Morality Setting Police Facilities
Objective 2: Increase the Number of Police Officers by 20%	Objective 2: Introduce Programs that Affect Career Development	Objective 2: Enhance the Number and Quality of External Relationships	Objective 2: Increase and Improve Communication Technology Opportunities	Objective 2: Identify and Purchase General Capital Equipment
Objective 3: Reduce the Fear of Crime	Objective 3: Create Methods to Improve the Department's Internal Communications	Objective 3: Enhance the Number and Quality of Community Relationships	Objective 3: Improve Broadview Police Department Technology and Infrastructure	Objective 3: Plan for future Police Facilities and Needs
Objective 4: Improve the Level of Community Crime				

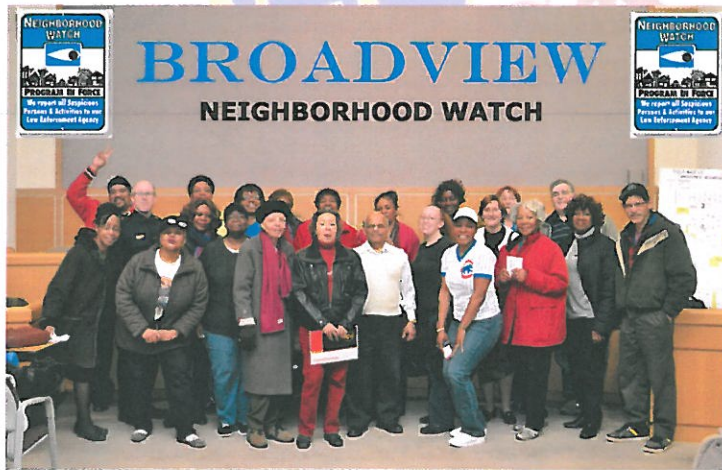

## POLICE WATCH NEWSLETTER

The Police Watch Newsletter is a way that the Broadview Police Department connects with the Community. By sharing information, we can inform residents about what's happening in town.

Copies of the Newsletter are at the Village Hall, Broadview Public Library, Broadview Park District and online at [www.Broadview-il.gov](http://www.Broadview-il.gov).

## NEIGHBORHOOD WATCH

2013 saw the return of a Neighborhood Watch program in Broadview. Residents immediately stepped forward to volunteer as Officers, Block Captains, and Area Coordinators. Meetings are held at 7pm on the last Friday of every month @ the Village Council Chambers. Come share your ideas and concerns with fellow neighbors and members of the Police Department who attend each meeting.

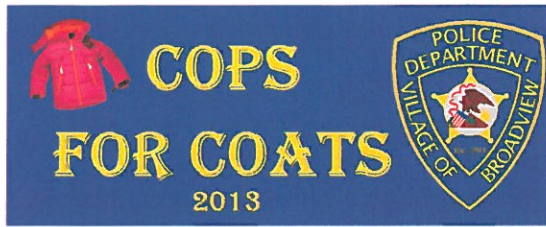

## OPERATION SANTA CLAUS

Thanks to your generous donations, members of the Police Department, Fire Department, Village Hall, Park District and the Broadview Public Library were able to deliver gifts to six deserving families this year. At 4 pm on Christmas Eve, a caravan of fire trucks and squad cars left the Park District's Schroeder Park facility, on their way to the homes of several Broadview residents, to help make their Christmas something special.

## COPS FOR COATS

For the second year in a row, the residents of Broadview donated their new and used jackets and coats as part of our COPS FOR COATS initiative. The Salvation Army then distributed the outerwear to those who are less fortunate than we are.

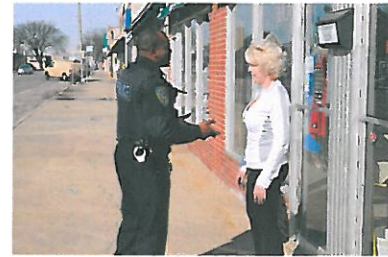

## BIKE PATROL

During the warmer months, our officers are encouraged to jump on the bike during their shift and interact with the residents and local businesses. We have found that eliminating the barrier of a squad car, creates an opportunity for dialogue with the people we serve. There is a tactical element too. An officer on a bicycle can fit between apartment buildings and can watch for criminal activity from behind a tree or a parked car. Next time you see one of our Bike Officers, wave them over and introduce yourself. They're there for YOU!

## WALK N' TALK

We now encourage our officers to get out of their cars and connect with the public on foot. There is no better way to really get a feel for a specific area of town, than by getting out of the car and actually 'walking the beat'. Officers on foot are visible and approachable. They are expected to stop and have conversations with owners and patrons of local businesses. The benefits of this time-tested method of patrol are being felt by residents, business leaders, AND the officers who get to know them.

The Broadview Police Department recognizes that residents may sometimes feel uneasy about reporting certain types of crime. Fear of retribution keeps good people from reporting criminal activity even when it's occurring right outside their own front door.

By establishing an email address for reporting these types of crimes anonymously, we hope to encourage good citizenship, while offering a sense of security to those who might otherwise feel their only choice is to look the other way. Anonymous crime tips can be sent 24/7 to [cops@broadview-il.gov](mailto:cops@broadview-il.gov).

## Anonymous Crime Tips

[Cops@broadview-il.gov](mailto:cops@broadview-il.gov)

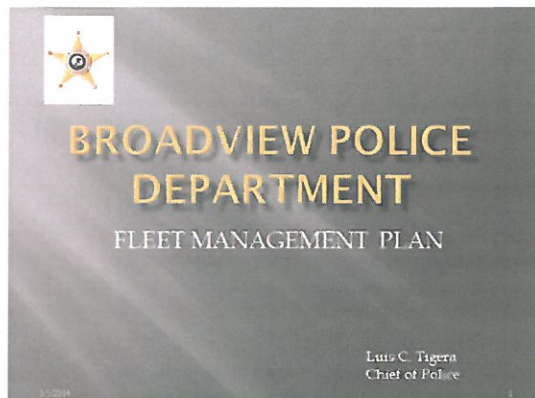

## AR15 RIFLES

In 2013, we replaced our aging stockpile of shotguns with modern, high capacity AR15 rifles. These new rifles are more reliable, accurate and are easier to use than ever before. Each rifle is equipped with precision laser-pointed sights and shoulder straps. Each officer is now trained in the use of these new rifles, and that training is on-going.

The Broadview Police Department developed a Fleet Management Plan to determine a rotation process that will assist other Village department's vehicle usage.

This plan applies to the functions, operations, and resources necessary to ensure optimization of the Department fleet inventory. The plan will identify

how to acquire, manage, use, and dispose of police vehicles. These vehicles will be acquired through purchase or a government lease program.

## **REPORTS AND ANALYSIS**

### **Vehicle Pursuits**

It is policy of the Broadview Police Department not to engage in vehicle pursuit for offenses other than serious felonies. Vehicle pursuit is justified only when the officer knows or has reasonable grounds to believe the suspect is attempting to evade apprehension and the suspect, if allowed to escape, may present a danger to human life or cause serious injury to other people. There was one (1) pursuit reported for 2013. There are no trends or patterns identified that would indicate additional training, policy changes or need for additional equipment.

### **Internal Investigation**

The purpose of establishing an internal investigation policy is to maintain professional conduct in the department. These procedures will assure prompt and thorough investigation of alleged violation of policies and, if needed, will facilitate suitable corrective action. In 2013, there were 13 internal investigations, as compared to 12 in 2012. The following report is a collection of data derived from the internal investigations conducted during the 2013 calendar year.

## Reports and Analysis

Allegations	Disposition	Action
Traffic Accident	Non-Sustained	None
Violation of Dept. Reports #26	Unfounded	None
Unsatisfactory Performance	Sustained	Oral Counseling
Unsatisfactory Performance	Sustained	Oral Reprimand
Unsatisfactory Performance	Sustained	Oral Reprimand
Traffic Accident	Sustained	Oral Reprimand
Excessive Use of Force	Non-Sustained	None
Excessive Use of Force	Non-Sustained	None
Administrative	Unfounded	None
Unsatisfactory Performance	Sustained	Oral Counseling
Traffic Accident	Non - Sustained	None
Pursuit Policy	Sustained	1 Day Suspension
Traffic Accident	Sustained	Oral Reprimand

## Special Investigations

The Chief's Office opened two (2) investigated cases which were supervised by the Chief of Police.

## Analysis of Grievances

It has been the policy of the Department to strictly adhere to the policy of the Village of Broadview, which establishes and maintains the Grievance Procedure that is designed to resolve matters between the employee and employer fairly and expeditiously. A grievance is any complaint concerning working conditions, classification, salary, or other work related matters covered under the collected bargaining agreement between the village and the unions. An annual analysis of grievances is required in order to determine if a trend is observed and what steps may be taken to minimize the causes of such grievances in the future. There was one (1) grievance filed in 2013. No patterns or trends can be determined at this time.

## 2013 DEPARTMENT RECOGNITION

*Given in recognition of the exemplary work performed by these employees,  
And for the credit those actions have brought to  
The Broadview Police Department*

## 2013 POLICE OFFICER'S HIRED

# Durbin: Chicago to get more than \$1M for 15 new police officers

SUN-TIMES MEDIA WIRE September 27, 2013 4:04PM

00 Share3336

Updated: September 27, 2013 4:11PM

U.S. Sen. Dick Durbin announced Friday the federal government will give the city nearly \$1.9 million to hire 15 police officers. Chicago is one of 263 cities that will be given money through the Department of Justice Office of Community Oriented Policing Services program, according to a statement from Durbin.

In total, five communities in Illinois received a total of \$3.5 million, according to the statement. Southwest suburban Broadview is the only other Chicago area community to receive money, and will get \$125,000 for one police officer.

“Even as tight budgets have forced many law enforcement agencies to reduce the number of officers on duty, the safety of our communities must be our top priority,” Durbin said in the statement. “This funding will help meet that goal and combat crime by putting more local cops on the beat.”

In 2013, the Broadview Police Department hired four new officers. Three of the newest officer's came with police experience from other agencies, and one attended the police academy at College of DuPage. In 2013, Officer B.Grzymkowska became the first female officer.

## 2013 DEPARTMENT PROMOTIONS

Sergeant Michael Akim

Sergeant Daniel Conforti

## CENTENIAL CELEBRATION

Beginning January 1st, 2014, Officers from this department will begin wearing a brand new patch. This new patch is the first re-design since the 1980's. In fact, there have only been four other BPD patches since the 1960's, so it was time for a change. While the new patch retains most of the traditional look, the shape is just a little more contemporary. Officers from every division within the department provided input, and eventually came to agreement over the new design.

In addition, to commemorate the village's 100<sup>th</sup> anniversary, new badges were created and distributed to our officers to be worn throughout 2014. The shield design is unique for this police department, because historically our officers have only worn stars. We're proud to celebrate this 100 year milestone with something completely new, which exemplifies our vision toward the future.

# COMING SOON

## “EYE IN THE SKY” – A Police Officer’s Tool

Municipalities across the country are in a constant search for effective public safety interventions that will curb crime and improve the livability and economic well-being of their communities. This is particularly true with our community policing philosophy, which has become a key component of our policing efforts in Broadview. We continue to look at new ways of improving our public safety focus, by not impacting our pro-active street level enforcement initiatives. We are interested in employing new tools that can enhance our community policing efforts. Among the latest waves of public safety tools is the use of public surveillance cameras, often referred to as Closed Circuit Television (CCTV). Community policing, which embodies a combination of proactive crime prevention and community engagement with more traditional policing functions, may benefit from this technology because public surveillance cameras could enhance problem-solving strategies, aid in arrests and investigations, and ultimately increase potential offenders’ perceptions that they will be both caught *and* prosecuted. Broadview Police will continue to seek new technologies that hold promise for enhancing our public safety efforts.

## “REDEFINING” - COMMUNITY POLICING STRATEGIES

Broadview Police Department has embraced a more comprehensive Community Policing *approach* addressing the causes of crime, encouraging community participation, and using of existing resources more effectively. This approach focuses on three issues: *COMMUNICATION, ACCOUNTIBILITY, and TRUST*. BPD officers will be responsible to communicate more with the community, as well as being accountable for incidents that occur in their respective beats/areas. A system has been developed by supervisors to track officer’s response to incidents in their areas.

This *approach* more closely aligns the police with community-identified needs. Too often, the broken window, abandoned car, discarded trash and other signs of disorder that residents complain about within a neighborhood have been overlooked while we focus on individual crime incidents.
